Dear Professor Panexoe

I am a Londoner doing research on the First International. I have followed with keen interest your various works on socialism, & particularly Lenin's polemic with you, & your book on Lenin.

I would deem a great favour if you would permit ^(me) to visit you to have the pleasure to talk to you on a number of socialist problems.

I hope that you will not consider this request as an act of impudence.

Looking very much to hear from you.
Yours very sincerely
Chimel A. Gausditz

Antw 23 July Address Changed. I cannot encourage your plan of visiting me here, since my hearing is so bad that I have broken off nearly all my personal intercourse with my friends, and am treating all our relations by writing. I hope it will be possible for you to present your number of socialist problems to me in the form of a letter, and that it will be possible for me to give satisfactory solutions to them. I must add that the history of the First International is not just the object with which I am best acquainted -
