Dear comrade Pannakoek:

We are sorry you do not find it possible to write an article for the Review. If you find it convenient to suggest such an article to a worthwhile acquaintance of your, please do so. Reviews of important books on economics, politics and sociology, as well as articles on situation in Germany and France will especially be appreciated. Of course, we prefer the work of a person who approaches the general standpoint of the I.R. The articles may be written in German or French. We shall be greatly obliged if by chance you are able to suggest this to the right man.

Cordially,

E.V.Walker
